Stir to continue till Telangana state is formed: KCR

Hyderabad: Coming down heavily on the CPI(M) for opposing statehood for Telangana before the Srikrishna Committee, Telangana Rashtira Samiti(TRS) President K Chandrasekar Rao today asserted that the "stir for statehood for Telagnana will continue till the goal is achieved".

"In hundreds of villages, people cutting across caste and creed are observing relay fast for the last 130 days. Nowhere in the world can such a movement be seen," he claimed, addressing pro-Telangana activists at a meeting held to felicitate TDP MLA Sriram Reddy along with hundreds of his supporters who joined the TRS.

He took strong objection to the CPI(M)'s reported submission before the Srikrishna panel that the agreements reached at the time of merger of Hyderabad state and the Andhra state in 1956 and at different stages later, were not binding. The gentlemen's agreement had also been included in Parliament records.

Similarly the Presidential order had statutory backing, he added.

On the fears expressed by the CPI(M) that there might be communal riots in the event of formation of separate Telagnana state, Mr Rao said except during the Congress regime and the "Razakar" atrocities in 1947, communal harmony had been prevailing for over 500 years.

Injustice to Telangana continued in various spheres even to this day, he alleged, adding even after 50 years not even 1/3rd of the Sriramsagar Project had been completed though successive governments had been claiming that they were according top priority to irrigation projects in the Telangana region.

People should live a free life not a life of parasite, let us live freely and stop being like a parasite on us, let telangana make its own destiny and elivate the andhra to any possible level if you can do it freely.

Re: Ramana - you seem to be very mean. You do not seem to have any clear understanding, strategy and what is required for the country and well being of the people. Pls try to list down pros and cons of bifurcating the caste and then think through. Pls do not be mean thinking that Telangana is an isolated problem. Entire country will disintegrate because of illogical thinking and behaviour people like you have

• It is high time justice srikrishna commission of inquiry realise the furutre impact of division of state vis-a-vis sentiment factor of t-region. The innocent people of t-region are victims of political mishandling by vested leaders who fraudulently built their T.bhavans at the turmoil and sweat of the innocent people of t-region. Incompetent political leadership and absance of a peoples leader is the sole issue of t-region in few high sentiment districts. Being from judiciary lineage, justice srikrishna commission must give importance to views of people of hyderabad (tri-cities viz:hyd-secbad-cyberabad) and also visit other regions areas and peoples view so that impact of wrong judgements will not ruin the whole state of a.p. at the behest of civil war imaginary threats of incompetent vested t-politicians for personal family fortunes and political survival hiding behind the sentiments of the people and resorting to provocative sacrifices of innocent students, youth and rural masses of t-region. The whole t-issue is based on inability to resolve the unending injustices to this region. the justice will be unquestionable only of all affected parties & people of entire state are given a chance from both sides and not unilaterly ex-parte judgements due to kcr phobia of civil war etc. that more tha 8 crores people of a.p.state are capable of handling the nautanki of kcr and slaves of kcr in public which should be ignored or else let justice sri krishna & team enroll for first year law college to learn afresh problems plagued in the indian judical system to render unquestionable justice acceptable to all people of a.p.
